

Science-1A Students,

The lecture notes for Friday, August 13 are at
<https://yosemitefoothills.com/Science-1A/OnlineLectureAndLabNotes/Week-01-Lecture-Friday-August-13-2021.pdf>

These notes direct you to watch several videos that were created to support a full semester physics course. My notes tell you what parts are relevant for Science-1A and which should be interesting but are not relevant for us.

Craig
