

Science-1A Students,

I have (belatedly) added the lecture notes for Monday, November 8. They are at <https://yosemitefoothills.com/Science-1A/OnlineLectureAndLabNotes/Week-14-Lecture-Monday-November-8-2021.pdf>

Be sure to study the link in that note entitled "Carbon Dioxide, Water, Oxygen and Life" and watch the video about ocean acidification. Our CO₂ emission is not just about warming and coastal flooding!

Craig
