

Science-1A Students,

I have added the lecture notes for Monday, November 22. They are at <https://yosemitefoothills.com/Science-1A/OnlineLectureAndLabNotes/Week-16-Lecture-Monday-November-22-2021.pdf>

These are the preparation notes for our last quiz. There are lots of questions so study them well!

There will be no more lab notes. The end of the semester is close when all work must be completed:

- Calculations Test

- 8 quizzes

- 15 labs, 4 with double credits (labs 6, 12, 13, and 15), for a total of 19 lab credits

- Physics Midterm

- Chemistry Midterm to be sent out November 29

- Final Exam to be sent out December 6

Have a happy and safe Thanksgiving.

Craig
