

Science-1A Students,

This is a copy of the text sent with the Chemistry Midterm. You should have separately received your version of this text with your Chemistry Midterm attached.

Here is the Chemistry midterm test. For more information, see the note at <https://yosemitefoothills.com/Science-1A/QuizAndTestPractice/InformationAboutChemistryTestAndFinalExam.pdf>

This is due by the night of Sunday, May 16, so I can get the grading back before you start the Final Exam. You may only consult clean versions of our Periodic Table and Equation Sheet.

If you have problems printing this, you can just write the answers with question numbers on a piece of paper and send that. If you need to do that, but be very careful that you don't overlook any questions or parts of questions when doing so!

Good Luck

Craig
